Oracle 12c OCP 1Z0-062: Installation and Administration

Module 1: Database Concepts And Tools

Instructor And Course Introduction
Database Concepts And Tools - Part 1
Database Concepts And Tools - Part 2

Module 2: Memory Structure

Memory Structure - Part 1
Memory Structure - Part 2

Module 3: Tables

Tables - Part 1
Tables - Part 2

Module 4: Indexes

Indexes - Part 1
Indexes - Part 2

Module 5: Constraints And Triggers

Constraints And Triggers - Part 1
Constraints And Triggers - Part 2

Module 6: Users

Users
Profiles
Privileges
Roles

Module 7: Internal Structures

Storage Structures - Part 1
Storage Structures - Part 2
Internal Memory Structures - Part 1
Internal Memory Structures - Part 2
Background Processes - Part 1
Background Processes - Part 2

Module 8: Starting Up and Shutting Down Database

Starting And Stopping DataBase - Part 1
Starting And Stopping DataBase - Part 2

Module 9: Critical Storage Files

Critical Storage Files - Part 1
Critical Storage Files - Part 2

Module 10: Data Manipulation Language

DML Atomicity - Part 1
DML Atomicity - Part 2
DML Insert
DML Update - Part 1
DML Update - Part 2
DML Delete And Review Of DML Statements - Part 1
DML Delete And Review Of DML Statements - Part 2

Module 11: Data Concurrency

Data Concurrency - Part 1
Data Concurrency - Part 2

Module 12: BackUp And Recovery

Back Up - Part 1
Back Up - Part 2
Back Up - Part 3
RMAN Catalog
RMAN BackUps - Part 1
RMAN BackUps - Part 2
Disaster Preparedness
Recovery
Flashback Recovery

Module 13: Installation

Installation - Part 1
Installation - Part 2

Module 14: Course Review

Course Review - Part 1
Course Review - Part 2
Course Review - Part 3
Course Review - Part 4
Course Review - Part 5
Course Outro
