# Microsoft 70-464: Developing Microsoft SQL Server 2012 Databases

## Module 1: SQL 2012 And The 464 Test

Introduction

Intro To SQL Server 2012-Part1

Intro To SQL Server 2012-Part2

Management Studio Demo-Part1

Management Studio Demo-Part2

Management Studio Demo-Part3

Other SQL Server Tools

## Module 2: Working With Data Types

Working With Data Types-Part1

Working With Data Types-Part2

Working With Data Types-Part3

Other Data Types

## Module 3: Tables

Tables

Creating Tables

## Module 4: Data Constraints

Data Constraints-Part1

Data Constraints-Part2

## Module 5: Planning In Indexing

Planning In Indexing-Part1

Planning In Indexing-Part2

Planning In Indexing-Part3

Planning In Indexing-Part4

## Module 6: Table Structures

Table Structures

Working With Clustered Indexes

Clustered Indexes

Designing Effective Clustered Indexes

## Module 7: Improving Performance with Non-Clustered Indexes

- Improving Performance With Non-Clustered Indexes-Part1
- Improving Performance With Non-Clustered Indexes-Part2
- Improving Performance With Non-Clustered Indexes-Part3

## Module 8: Using Indexes And Execution Plans

- Using Indexes
- Execution Plans-Part1
- Execution Plans Demo
- Execution Plans-Part2

## Module 9: Working with Views

- Working With Views-Part1
- Working With Views-Part2

## Module 10: Designing and Implementing Stored Procedures

- Designing And Implementing Stored Procedures-Part1
- Designing And Implementing Stored Procedures-Part2
- Designing And Implementing Stored Procedures-Part3

## Module 11: Merging Data and Passing Tables

- Merging Data And Passing Tables-Part1
- Merging Data And Passing Tables-Part2
- Merging Data And Passing Tables-Part3

## Module 12: Designing and Implementing User Functions

- Designing And Implementing User Functions

## Module 13: Creating Highly Concurrent SQL Server Applications

- Creating Highly Concurrent SQL Server Applications-Part1
- Creating Highly Concurrent SQL Server Applications-Part2
- Creating Highly Concurrent SQL Server Applications-Part3

## Module 14: Handling Errors in T-SQL

- Handling Error InT-SQL-Part1
- Handling Error InT-SQL-Part2

## Module 15: Triggers

- Triggers

## Module 16: Implementing Managed Code

Implementing Managed Code-Part1  
Implementing Managed Code-Part2  
Implementing Managed Code-Part3  
Implementing Managed Code-Part4

## Module 17: Storing XML in SQL

Storing XML In SQL-Part1  
Storing XML In SQL-Part2

## Module 18: Querying XML

Querying XML-Part1  
Querying XML-Part2

## Module 19: Working with the Spatial Data

Working With Spatial Data-Part1  
Working With Spatial Data-Part2  
Working With Spatial Data-Part3

## Module 20: Working With Full-Text Indexes and Queries

Working With Full-Text Indexes And Queries-Part1  
Working With Full-Text Indexes And Queries-Part2  
Working With Full-Text Indexes And Queries-Part3
