Microsoft 70-413: Designing and Implementing a Server Infrastructure

Module 1: Plan and Deploy Infrastructure

Introduction

Plan And Deploy Infrastructure-Part 1

Plan And Deploy Infrastructure-Part 2

Plan And Deploy Infrastructure-Part 3

Module 2: Planning and Implementing

Planning And Implementing-Part 1

Multicast Deployment Wizard Demo

Planning And Implementing-Part 2

Pre-staging Clients Demo

Planning And Implementing-Part 3

Configuring Windows Deployment Services Demo

Planning And Implementing-Part 4

Module 3: Planning and Implementing Server Upgrade and Migration

Planning And Implementing Server Upgrade And Migration-Part 1

Planning And Implementing Server Upgrade And Migration-Part 2

Planning And Implementing Server Upgrade And Migration-Part 3

Module 4: Planning and Deploying Virtual Machine Manager Resources

Planning And Deploying Virtual Machine Manager Resources-Part 1

Planning And Deploying Virtual Machine Manager Resources-Part 2

Planning And Deploying Virtual Machine Manager Resources-Part 3

Planning And Deploying Virtual Machine Manager Resources-Part 4

Module 5: Planning and Implementing File and Storage Services

PlanningAnd Implementing File And Storage Services-Part 1

Planning And Implementing File And Storage Services-Part 2

Configuring The iSCSI Target Server Demo

Planning And Implementing File And Storage Services-Part 3

Configuring Internet Storage Name Server Demo

Planning And Implementing File And Storage Services-Part 4

Module 6: Design and Implement Network Infrastructure Services

Design And Implement Network Infrastructure Services

Module 7: Design and Maintain a Dynamic Host Configuration Protocol Solution

Design And Maintain A Dynamic Host Configuration Protocol Solution-Part 1

Configuring Split Scope In DHCP Demo

Design And Maintain A Dynamic Host Configuration Protocol Solution-Part 2

Design And Maintain A Dynamic Host Configuration Protocol Solution-Part 3

Module 8: Design a Name Resolution Solution Strategy

Design A Name Resolution Solution Strategy-Part 1

Design A Name Resolution Solution Strategy-Part 2

Configuring Global Names Zone Demo

Design A Name Resolution Solution Strategy-Part 3

Module 9: Design and Manage an IP Address Management Solution

Design And Manage An IP Address Management Solution-Part 1

Design And Manage An IP Address Management Solution-Part 2

Module 10: Design and Implement Network Access Services

Design And Implement Network Access Services

Module 11: Design a VPN Solution

Design A VPN Solution-Part 1

Design A VPN Solution-Part 2

Module 12: Design a DirectAccess Solution

Design A Direct Access Solution-Part 1

Design A Direct Access Solution-Part 2

Module 13: Implement a Scalable Remote Access Solution

Implement A Scalable Remote Access Solution-Part 1

Implementing Packet Tracing Demo

Implement A Scalable Remote Access Solution-Part 2

Implement A Scalable Remote Access Solution-Part 3

Looking At Setting In Direct Access Demo

Implement A Scalable Remote Access Solution-Part 4

Module 14: Design and Implement a Network Protection Solution

Design And Implement A Network Protection Solution-Part 1

Design And Implement A Network Protection Solution-Part 2

Design And Implement A Network Protection Solution-Part 3

Looking At Multiple RADIUS Servers Demo

Design And Implement A Network Protection Solution-Part 4
Taking A Look At IP Sec Policy Enforcement Demo
Showing 802.1X Policy Enforcement Demo
Design And Implement A Network Protection Solution-Part 5

Module 15: Design and Implement an Active Directory Infrastructure

Design And Implement An Active Directory Infrastructure

Module 16: Design a Forest and Domain Infrastructure

Design A Forest And Domain Infrastructure

Module 17: Implement a Forest and Domain Infrastructure

Implement A Forest And Domain Infrastructure-Part 1
Steps To Perform A Realm Trust Demo
Implement A Forest And Domain Infrastructure-Part 2

Module 18: Design a Group Policy Strategy

Design A Group Policy Strategy

Module 19: Design an Active Directory Permission Model

Design An Active Directory Permission Model-Part 1
Taking A Look At The Security Tab Or Lack Of Demo
Design An Active Directory Permission Model-Part 2
Taking A Look At The Delegation Or Control Wizard Demo
Design An Active Directory Permission Model-Part 3
Taking A Look At Kerberos Delegation Demo
Design An Active Directory Permission Model-Part 4

Module 20: Design and Implement an Active Directory Infrastructure (Physical)

Design And Implement An Active Directory Infrastructure Physical

Module 21: Design an Active Directory Site Topology

Design An Active Directory Site Topology

Module 22: Design an Active Directory Site Topology

Design A Domain Controller Strategy

Module 23: Design and Implement a Branch Office Infrastructure

Design And Implement A Branch Office Infrastructure-Part 1
Design And Implement A Branch Office Infrastructure-Part 2
Taking A Look At Password Replication Policy Tab Demo

Design And Implement A Branch Office Infrastructure-Part 3

Conclusion
